July 3, 2021 - Can camera licenses be transferred to Synology Surveillance Stations? I have 2 units of a single license pack installed on top of 2 .NET applications. If you need to use the same package to transfer the license to the cameras, what will be the cost of the license? Will I be able to use multiple packages (one license for two pieces of equipment), or will I have to use separate licenses for this? It depends on the types of licenses. To transfer camera licenses to Synology, you need to use NUC and NAS camera license packs.
